## Education history

B.Eng. (Computer Engineering),  
KMITL  
2021-now

High School (Sci-Math program),  
Pibulwitthayalai School Lopburi  
2018-2021

High School (Genius program),  
Winitsuksa School Lopburi  
2015-2018

## Experience, work and contributions

### Personal & community projects

- Maintain homelab Linux server setups
- Host websites built with Hugo framework
- Deploy various server-side apps with Docker
- Write project documentation such as guides to set up a development environment for testing

### KMITL projects

- Set up CI/CD and other deployment methods for various projects

### Other work & contributions

- Promote open source software by creating videos
- Blog about distributed computing projects
- 19,000+ map changes on OpenStreetMap
- Develop simple websites in HTML and CSS

### Notable participated events

- Bangkok Open Source Hackathon 2023
- Hacktoberfest 2023 by CreatorsGarten
- State of The Map Asia 2023 at Srinakharinwirot University

## Skills

Docker

OpenStreetMap

GitLab CI & Pages

Linux

Libvirt & QEMU/KVM
